DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II in the response filed on 2/25/05 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 19-22, 25, 29 and 33 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Fujimoto.

Re claim 33, the panel of Fujimoto is considered to be a "tonneau cover" as broadly as recited.

Claim Rejections - 35 USC § 103

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. Claims 26-28 and 31-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fujimoto.

Fujimoto discloses the claimed invention except for the use of reinforced plastic materials instead of a metal.

Section 2144.07 of the MPEP sets forth that the selection of a known material based on its suitability for its intended use supported a prima facie obviousness. See *In re Leshin*, 227 F.2d 197, 125 USPQ 416 (CCPA 1960)

It would have been obvious to one of ordinary skill in the art at the time the invention was made to construct the metal panel of Fujimoto from a well known plastic material or reinforced plastic material instead of metal because such selection of a

known plastic is of a lighter weight and can be suitably strong for such a use in view of
In re Leshin, 227 F.2d 197, 125 USPQ 416 (CCPA 1960).

Allowable Subject Matter

6. Claims 14-18 are allowed.

7. Claims 23-24 and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
